

Thank you for choosing TurboFix Toolbox!

Here's how to get the most out of it:

🌟 How to Use:

- **Step 1:** Extract the .zip file to a folder.
 - **Step 2:** Right-click on `TurboFix_Toolbox.exe` and select **Run as Administrator**.
 - **Step 3:** Explore cleaning, repair, optimization, and diagnostics tools!
-

⚙️ Important Tips:

- Always **backup important files** before using repair functions.
 - Some actions (like "SFC Scan" or "System Report") may take 5–20 minutes.
 - Admin rights are **recommended** for best results.
-

🚀 Best Tools to Start With:

Feature	Benefit
Clean Temp Files	Instantly free up space
System File Checker (SFC)	Fixes Windows errors
Speed Test	Check your internet connection
Winget Updater	Updates all apps silently
Large Files Scan	Find big space-wasters

Enjoy a faster, healthier PC!

Support is available via your Gurmod account.
